

EXPLANATION OF THE GAME 
 SPIELERKLÄRUNG 

Black Jack

Blackjack is played with six decks of 52 cards each. The player plays against the house with the aim of getting the most points with his/ her cards without going over 21. Aces count for 1 or 11 points, face cards for 10 points, and all other cards for the number of points shown on them

The player is free to take or not take a card. The dealer must take a card at 16 and may not take any more cards at 17 or more.

After being dealt the first two cards, the player can «double down», i.e. double his/her bet. If the player's first two cards are the same, he/she can «split», i.e. play a hand with each card.

If the house deals itself an ace with the first card, the guest can buy insurance against a blackjack by the house. To do so, he/she must place half of the original bet on the insurance line. Once a third card is dealt to a guest, insurance is no longer possible.

The players are not allowed to influence the box holder in making his/her decision. Per box, bets may be placed up to the table's box maximum.

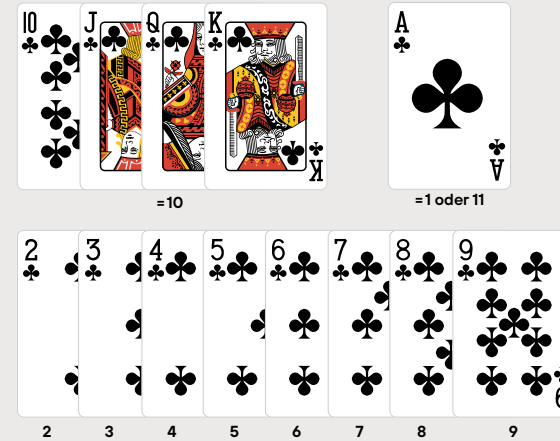

Card values

- There is also an «insurance line» where players can buy insurance against a possible blackjack by the house.
- In addition, there is a «perfect pair» field above each box. Here, the guest can place a side bet if he/she wishes.
- There is also a line for the side bet «bust» above the playing area.

Insurance

If the house's first card is an ace, the players can buy insurance against a blackjack by the house at the cost of half of their bet. The dealer will directly offer this option to the guests. Once a third card is dealt to a guest, insurance is no longer possible.

If the house gets a blackjack, the insurance pays 2:1. If the house does not get a blackjack, the insurance is lost and will be collected directly after the house draws the second card.

TriLux side bets

TriLux is a blackjack side bet based on the first two player cards and the dealer's face-up card. If the player has a winning combination, the chance is paid immediately and handed over to the guest with the stake. New bets on 'TriLux' are only permitted after the end of the game.

Perfect Pairs – side bets

If the guest's first two cards are a pair, the wager is paid immediately and handed over to the guest with his/her side bet. New perfect pair side bets are first permitted after the round ends.

Bust

The «bust» side bet means a wager that the house will go bust (more than 21 points). The side bet is placed on the «bust» field and the payout is 2.5:1 if the player wins.

Maximum

The bet applies per guest and may not exceed the initial bet or the table maximum.

Odds

- **Double down:** With the exception of a blackjack combination, the box holder can double his/ her bet after being dealt the first two cards (incl. after splitting). To do so, the original bet has to be wagered again. When doubling down, only one more card is dealt.
- **Split:** Two cards with the same number can be split if the box holder so desires. To do so, the original bet has to be wagered again.
- **Split and double down:** Split hands can also be doubled down.

Odds	Higher card total than the house	Blackjack (ace and facecard)	Insurance	7 - 7 - 7

Payout rate	1:1	3:2	2:1	1:1
TriLux Flush (side bet)	TriLux Straight (side bet)	TriLux Three of a Kind (side bet)	TriLux Straight Flush (side bet)	Bust (side bet)
				The house goes bust (has a card total higher than 21)
5:1	10:1	20:1	30:1	2.5:1

Minimum – maximum

Minimum/maximum bets are prescribed values and are always posted on the table. In the event of disputes, the final decision is made by management.

Playing should be fun!

That is our philosophy. Nevertheless, gambling can also be dangerous. If you observe signs of problematic gambling behavior in yourself or in someone close to you, our duty managers and the person entrusted with the social concept will be there to help you. Our employees will also be happy to answer any questions you may have about assistance.
